Skills

Front-End: HTML, CSS, JavaScript, React.js, TypeScript, Next.js, Responsive Design, Cross-Browser Compatibility, CSS Preprocessors (e.g., SASS, LESS), RESTful APIs, Version Control (Git), Web Performance Optimization, Browser Developer Tools, Webpack/Parcel, UI/UX Design Principles, Accessibility (WCAG), AJAX/Fetch API, Front-End Testing (Jest, Cypress), npm/Yarn, Liquid, Micro Frontend.

Back-End: Node.js, Express.js, RESTful APIs, NestJS, GraphQL, MongoDB, SQL (PostgreSQL, MySQL), Authentication & Authorization (OAuth, JWT), Microservices, Serverless Architecture, API Design & Development WebSockets, Unit Testing (Jest, Mocha), Caching (Redis), Version Control (Git), CI/CD (GitHub Actions), Security Best Practices, Logging & Monitoring

Work Experience

Infilon Technologies Pvt Ltd, Ahmedabad Mar 2022 - Present **Software Engineer**

- Developed Responsive Web Applications: Built and maintained responsive applications using HTML, CSS, and JavaScript, React.js, ensuring compatibility across devices and browsers.
- TypeScript Integration: Improved code quality and maintainability by integrating TypeScript into JavaScript projects, reducing runtime errors.
- Cross-Browser Compatibility: Ensured consistent user experiences by addressing cross-browser compatibility issues with CSS and JavaScript.
- Performance Optimization: Enhanced web performance through browser developer tools, lazy loading, and code-splitting techniques.
- Node.js & Express.js Development: Designed and developed RESTful APIs using Node.js and Express.js, ensuring secure and scalable back-end services.
- Database Management: Optimized data storage and retrieval by managing databases with MongoDB and SQL (MS SQL, MySQL).
- Authentication & Authorization: Implemented secure user authentication and authorization with OAuth and JWT.
- Serverless Solutions: Deployed serverless functions to AWS Lambda, reducing infrastructure costs and improving scalability.
- API Design & Development: Designed and implemented efficient GraphQL APIs, allowing clients to request only the necessary data.
- Real-Time Communication: Integrated WebSockets to enable real-time data exchange, enhancing user interaction.
- CI/CD Pipeline: Established CI/CD pipelines with GitHub Actions, streamlining deployment processes.
- Caching Strategies: Implemented Redis caching to optimize API response times and reduce server load.
- Orchestrated the integration of logging and monitoring tools across three different services, ensuring seamless performance tracking that is now utilized by over 15 engineers, resulting in smoother deployment cycles.
- Azure DevOps: Utilized Azure DevOps for project management, version control, and continuous integration/continuous deployment (CI/CD) pipelines.
- Scrum Master: Facilitated Agile Scrum processes, managed sprints, and coordinated team activities to ensure effective delivery and adherence to project timelines.

Punde Software, Bangalore Sep2021 - Mar 2022 **Junior Software Engineer**

- Crafted innovative Shopify themes for diverse industries, with a focus on maximizing user experience; implemented responsive design features, ensuring optimal performance across all devices.
- Liquid: Utilized Liquid, Shopify's templating language, to create dynamic and interactive e-commerce sites.
- Responsive Design Implementation: Ensured that Shopify themes were fully responsive and optimized for all devices, improving customer engagement and sales.
- Cross-Browser Compatibility: Addressed cross-browser issues to ensure consistent performance across different web browsers.
- Performance Optimization: Optimized Shopify stores for faster load times and better performance, resulting in improved SEO and user retention.
- Client Collaboration: Worked closely with clients to understand their requirements and deliver solutions.

- **Payment Gateway Integration:** Integrated and configured payment gateways (e.g., PayPal, Stripe) to handle secure transactions.
- **Internationalization:** Configured multi-currency support, multilingual stores, and international shipping options.
- **Customized the checkout process,** adding custom fields and integrating with third-party services.
- **Integrated custom features and plugins** into Shopify stores, tailoring solutions to meet specific client needs.
- **Wrote custom JavaScript and Liquid code** for additional functionality, like custom shipping rates.

Projects

[My Portfolio 2024](#): Designed and developed a custom portfolio website, emphasizing responsive design. Integrated Google authentication and authorization using NextAuth to enhance user access control and security.

Tech Stack: Next.js, NextAuth, Shadcn/ui, Tailwind, Framer Motion, ThreeJS.

Education

College(incomplete): KDK College of Engineering, *Nagpur, Maharashtra*

Studied Mechanical Engineering but did not complete the degree.

High School Diploma: Vidya bhumi public school, *Chhindwara, Madhya pradesh*

Graduated with a focus on Maths Science.
