TECHNICAL SKILLS

Languages: TypeScript, SQL, C#, Javascript, Liquid.

Frameworks: ReactJs, NextJs, React Query, Redux-Toolkit, MobX-State-Tree, NodeJs, AntD, TailwindCss,.NetCore

Developer Tools: Playwright, Git, WebPack, Vite, RabbitMQ, Azure DevOps, Postman.

Database: SQL Server, MongoDB

EXPERIENCE

Infilon Technologies Private Limited. (CalcuQuote)

Mar 2022 – Present

Software Engineer

Gujarat, India

- Migrated legacy AngularJS code to NextJS, boosting performance and simplifying maintenance. Additionally, reduced application interactivity time from 11.9 sec to 3.8 sec.
- Conducted a POC on micro-frontends with Vite and module federation, enabling independent UI development and deployment, significantly enhancing team collaboration and efficiency.
- Expanded technical skills by learning .NET Core and NodeJS, including building robust and performant APIs using onion architecture. Developed an understanding of databases such as SQL Server and MongoDB.
- Enhanced async communication between services by learning and implementing technologies such as Webhooks, Websockets, and message queuing by utilizing RabbitMQ and SignalR for communicating with 3rd party APIs.
- Monitored customer sessions by leveraging resources like RabbitMQ error queues, Intercom tickets, and LogRocket sessions, promptly identifying issues and effectively communicating with senior engineers to collaboratively resolve them.

Punde Software Private Limited.

Sep 2021 – Mar 2022

Jr. Software Engineer

Karnataka, India

- Crafted innovative Shopify themes for diverse industries, with a focus on maximizing user experience; implemented responsive design features, ensuring optimal performance across all devices.
- Liquid: Utilized Liquid, Shopify's templating language, to create dynamic and interactive e-commerce sites.
- Responsive Design Implementation: Ensured that Shopify themes were fully responsive and optimized for all devices, improving customer engagement and sales.
- Cross-Browser Compatibility: Addressed cross-browser issues to ensure consistent performance across different web browsers.
- Performance Optimization: Optimized Shopify stores for faster load times and better performance, resulting in improved SEO and user retention.
- Client Collaboration: Worked closely with clients to understand their requirements and deliver solutions.

PROJECTS

[Portfolio](#) | NextJS, NextAuth, Prisma, Google, MongoDB, Framer Motion, TailwindCSS

Aug. 2024

- Designed and developed a custom portfolio website with a focus on responsive design to ensure optimal viewing across various devices.
- Integrated Google authentication and authorization using NextAuth to enhance user access control and security.
- Utilized modern web development practices to create a visually appealing and user-friendly interface.
- Implemented features to showcase projects and skills effectively, demonstrating technical expertise and creativity.

[Vaccination Center Finder](#) | ReactJS, TailwindCSS, Hooks, Axios, APISetu

Sept 2020

- Developed a web-based COVID Vaccination Center Finder as people were avoiding contact. This was a great way to find a vaccination center near you.
- You can enter the pincode of your locality which will show local vaccination centers available near you.
- Shared the app with friends and family to help them to locate vaccination centers near them.

EDUCATION

Vidya Bhumi Public School(CBSE)

Madhya Pradesh, India

Intermediate

2010 – 2012
